PROFESSIONAL SUMMARY

Full Stack Developer with experience building modern web applications using MERN Stack, Next.js, and TypeScript. Hands-on experience developing AI-powered applications using LangChain, LangGraph, RAG, and LLM APIs, with a strong focus on scalable backend systems, clean architecture, and end-to-end product development.

CORE TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit, Shadcn UI

Backend: Node.js, Express.js, REST APIs, JWT Authentication, MongoDB, Mongoose, Redis, Socket.io

AI Tools: LangChain.js, LangGraph, Google Gemini API, MistralAI Embeddings, RAG Pipelines, Vector Search

Tools & Platforms: Git, GitHub, Postman, Cloudinary, Vercel Multer, Zod, Bcrypt

PROFESSIONAL EXPERIENCE

Fullstack Developer Intern

August 2025 – February 2026

Writecream / New Delhi

- Built responsive and reusable frontend components using React.js and Next.js for AI-powered products, improving code reusability and development efficiency across multiple modules.
- Built an AI-powered application generator that converts natural language prompts into production-ready applications by automatically discovering Replicate models, selecting optimal workflows using Gemini, generating complete code, and deploying applications to Netlify without manual intervention.

PROJECTS

SmartDesk – AI Productivity & Career Intelligence Platform

[Live](#) ↗

AI-powered platform for document chat, ATS scoring, resume analysis, and personalized learning roadmaps.

- Built a RAG-powered document chat system using LangChain, pgvector, and Mistral embeddings for semantic search across uploaded files.
- Developed LangGraph agents for AI-generated learning roadmaps, web research, and resource recommendation workflows.
- Created a Resume Intelligence module with ATS scoring, JD matching, and AI-powered resume optimization using Gemini.
- **Stack:** Next.js, TypeScript, Node.js, PostgreSQL, Prisma ORM, LangChain, LangGraph, Gemini, MistralAI, pgvector, Tailwind CSS

E-Commerce Platform

[Live](#) ↗

Full-stack e-commerce platform with secure payments, inventory management, and admin controls.

- Developed a scalable e-commerce platform featuring authentication, product catalog management, shopping cart, wishlist, order processing, and role-based admin controls.
- Integrated Razorpay payments and Redis caching, reducing API response times by 40
- Implemented product search, filtering, pagination, image management, and responsive user experiences across desktop and mobile devices.
- **Stack:** Next.js 15, React 19, Redux Toolkit, RTK Query, MongoDB, Redis, Razorpay, Tailwind CSS

Real-Time Chat Application

[Live](#) ↗

Secure real-time messaging application with Google OAuth and Cloudinary file sharing.

- Engineered a real-time communication system using Socket.io, enabling low-latency messaging, media sharing, user authentication, and synchronized chat state across connected clients.
- **Stack:** React 19, Express.js, MongoDB, Socket.io, Tailwind CSS, Tanstack Query, JWT Authentication

EDUCATION

Bachelor of Computer Applications (BCA)

2022 – 2025

JB Knowledge Park, Faridabad | CGPA: 7.0

12th Grade – CBSE

2022

Acharya Tulsi Sarvodaya Bal Vidyalyaya, Delhi | Score: 75%
